

A PRAYER FOR OUR COUNTRY

by Ernest Holmes and Dr. Raymont Anderson

Believing in the Divine destiny of humanity as a unified body of Life-Affirming individualized expressions of The Divine, and the evolutionary impulse of emancipation, liberty, equity, justice, and the creative and powerful blessings that come from self-expression, I offer this—my prayer, my declaration for my world.

I know that The Divine Intelligence, that which is Infinite Wholeness is ever present and operating back of and within all of creation and therefore the destiny of the planet and all life on it, this Divine intelligence is ever directing the thoughts, words, emotions and feelings, and the activity of all who align with the gentle wisdom of love, unity, cooperation, and collaboration. I know that Life-Affirming success and health, Life-Affirming prosperity and well-being, and Life-Affirming happiness and joyfulness are the gifts and blessings all receive when all are granted their divine right and privilege of emancipation, the freedom from all discord of every nature...

Life-Affirming success and health, Life-Affirming prosperity and well-being, and Life-Affirming happiness and joyfulness are now operating in the affairs of every individual the world over. None are free until all are free!

I know that Divine guidance, wisdom, creativity, imagination, and ideas enlighten the collective mind and the individual minds of the people across this planet, causing an evolutionary shift to occur individually and collectively to such a degree that Life-Affirming Mental Equivalents result and shift the way such things as capitalism operate, the way politics operate, the way religion operate, the way all systems operate. The result of this evolutionary shift is that all who are in need, receive what they need, whether medical care, housing, mental health care, nutrient-rich food and clean healthy water, and more. This comes to all in ways that grant greater Life-Affirming personal freedom, individual self-expression, and collective freedom and expression.

Knowing that evolution, love, and peace cannot be legislated, I know, affirm, and declare that the All-Knowing Mind of God, which is the mind each person has and uses, contains the answers for every problem that confronts this planet now.

I know, affirm, and declare that every leader around the planet is now directed to this All-Knowing Mind and that all of them have not only the knowledge of a complete solution to every problem but they also have the will and desire to manifest a world that works for all. And each is compelled to act upon this knowledge to ensure that health, well-being, peace, prosperity, care, support, equity, justice, and liberation should come to all! And I know that this spiritual democracy shall endure as long as we do what is ours to do..., guaranteeing to everyone on Earth (and beyond), personal and collective liberty, happiness, health, self-expression, and more.

This is what is so!

And so it is!

Amen
